## a more sustainable future

As we work towards better packaging for our customers and our planet, we have made changes to some of our packaging for 2020. Our Activity Packs, Creative Cases and Puzzles ranges no longer have foil and plastic handles on the packaging, making the boxes 100% recyclable. Where handles and plastic trays are needed, these will be made from widely recycled plastics with identification stamps. Our First Years range has been redesigned for 2020 with minimal single use plastic packaging, including introducing more hanging cards. Going forward, we aim to look at each range we offer to ensure we reduce, remove and allow for easy recycling of all plastics within Galt packaging.

# ambi toys

Ambi Toys with their simple lines, imaginative features and purity of colour have stood the test of time. Many of these toys designed in the 70s and 80s by Patrick Rylands, an award winning British designer, are still in production today. Babies and toddlers are not interested in passing trends, fashion colours or the latest gadget. They need well designed and reliable toys which don't disappoint during play and encourage development. Ambi toys are still satisfying these needs and are a continuing source of learning and fun.
