1836 - 2021

Behind the colourful and engaging toys, games and puzzles that Galt Toys is renowned for, there is a vibrant, local history with a story that began over 180 years ago. James Galt, born in Stewarton, Ayrshire, set up as a school bookseller in Manchester in 1836, before expanding into printing and publishing in the 1850s. A century later, the business relocated to Cheadle in Cheshire in 1957, where you can still find Galt today.

In 1961 the Galt Toys Retail Division was formed in response to the increasing demand for quality educational toys and remains dedicated to offering products that are beloved by generations of parents and children alike. To showcase these inspirational and innovative toys, the first Galt Toy shop opened in Great Marlborough Street, London in 1961 and in 1966 a Royal Warrant was granted by HM Queen Elizabeth II. Today, Galt Toys are available in over 5,000 outlets worldwide.

Galt Toys inspire learning through play and are fun, colourful, and imaginative, while also supporting all areas of child development. From a new-born reaching out to explore the textures and sounds of the innovative Playnest to the aspiring artist crafting their first handmade pottery creations, Galt Toys grow with your child. Many products are Good Toy Guide recommended, and our Explore and Discover science sets are not only compatible with the National Curriculum, but they were also winners of the Progressive Preschool Award for the Best Preschool STEM Range for 2019. All our products comply with or exceed current toy safety regulations and are quality controlled to meet the highest standard for complete peace of mind.

At Galt, we continue to work towards using and producing sustainable packaging for the benefit of our customers and our planet.

We have removed the foil from our Stationery, Water Magic and Home Learning books, and have redesigned our Young Art and Play and Learn ranges to remove as much plastic as possible, including all plastic handles. To allow for easy recycling, we are committed wherever possible to removing all plastics from Galt packaging.
