

Let's unlock  
the power of play

Galt Toys inspire learning through play and are fun, colourful, and imaginative while also supporting all areas of child development. From a newborn reaching out to explore the textures and sounds of the innovative Playnest to the aspiring artist crafting their first handmade pottery creations, Galt Toys grow with your child.

Many Galt Toys products are Good Toy Guide recommended and built to bring joy to generations. Our quality toys comply with or exceed current toy safety regulations and are quality controlled to the highest standards. But behind the engaging toys, games and puzzles that Galt Toys is renowned for, there is a story that began over 185 years ago when James Galt, born in Stewarton, Ayrshire, set up as a school bookseller in Manchester in 1836 before expanding into printing and publishing in the 1850s. A century later, the business relocated to Cheadle in Cheshire in 1957, where you can still find Galt today.

In 1961 the Galt Toys Retail Division was formed in response to the increasing demand for quality educational toys. To showcase these inspirational and innovative products, the first Galt Toy shop opened in Great Marlborough Street, London, in 1961. In 1966 a Royal Warrant was granted by HM Queen Elizabeth II. Today, Galt Toys are available in over 5,000 outlets worldwide.

The Jumbodiset Group has been developing, manufacturing, and selling innovative and affordable products for over 165 years. Games and puzzles, including the classic strategy board game, Stratego, and adult puzzles from brands such as Wasgij and Jan van Haasteren, are recognised and enjoyed by fans worldwide.

# SCIENCE

## HORRIBLE SCIENCE®

Science toys from Galt encourage children to discover new ways of thinking and be curious about the world around them. They will be introduced to early STEM learning through engaging hands-on experiments, developing problem-solving and critical thinking skills. As part of the Science category, the Explore and Discover range is compatible with the National Curriculum and complements school learning.

## Coming Soon

Magic School reopens!

This new magic game opens up a world full of imagination where every magician can create visually stunning spells. With the help of the magic wand and spell book, children will perform amazing spells while discovering the scientific explanation for each one.

## EXPLORE AND DISCOVER

With the Explore and Discover range, children can uncover the wonders of science and learn about the world around us. These exciting kits for young scientists all include a full colour lab book with exciting experiments. Explore and Discover Lab Kits for children aged 5 to 8 years will encourage early STEM learning and scientific thinking while having fun!

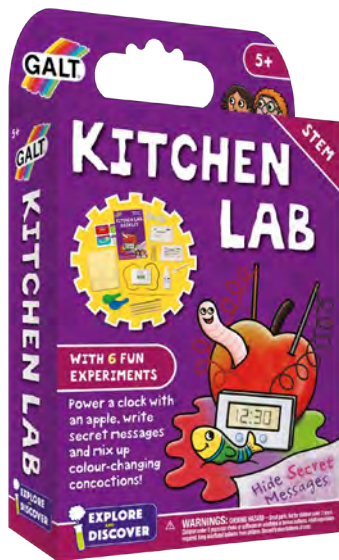

Early STEM learning from 5+

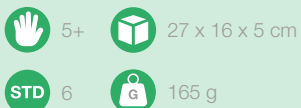

## Kitchen Lab

- Young scientists can learn how to power a clock with an apple, make colour-changing solutions and discover how to write secret messages
- Includes 6 fun experiments.

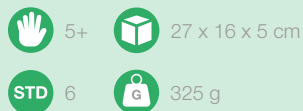

**Contents:** apple clock parts, purple potato powder, yeast, white vinegar, ice cube tray, 2 balloons, 3 cotton wool buds, mixing scoop, string, stickers and full colour 16-page Lab booklet.

## Goula - More than playtime

Goula, a name rooted in the Vic community (north of Barcelona), stems from a family legacy crafting turned goods and Christmas décor since 1942. Originating in the family home's basement under Josep Goula, our journey transitioned into crafting wooden toys, catering to children's play and educational needs. Through durable, warm wooden materials and engaging designs, we foster learning through play, nurturing children's capabilities and skills. Our 75-year evolution witnessed a shift, integrating cardboard, fabric, and blended materials while retaining the essence of timeless toys, now aligned with modern times. All creations stem from our Barcelona design hub, featuring collaborations with esteemed local illustrators, infusing Goula products with a radiant Mediterranean charm—our brand's hallmark. Today, from that humble family workshop, Goula stands tall as Spain's foremost wooden toy brand, revered across all markets.
